## TRAINING EXPERIENCE

### Web Development Trainee AlmaBetter

08/2023 - Present,

Bangalore (Remote)

Skills: React JS, Redux, MERN Stack, JavaScript, CSS, DSA.

- Acquired proficiency in both front-end and back-end programming.
- Utilized React for front-end development and Redux for state management.
- Developed skills in working with Node.js for backend development.
- Mastered best practices for user authentication and data encryption.
- Focused on creating high-quality and secure web applications through learning and practice.

## ACADEMIC PROJECTS

### Bus Booking App (09/2023 - 10/2023) [🔗](#)

- Tags: MERN, React JS, Redux-Thunk, Node.js, MongoDB, CSS, Express.js
- AlmaBetter Verified Project.
- Built and deployed a comprehensive bus booking application from scratch, utilizing React and CSS for the front end and Node.js, Express.js, and MongoDB for the back end.
- Implemented a responsive user interface, used Redux-Thunk for API calls, improved code maintenance, and react-redux for state management.
- Integrated Stripe payment gateway, ensuring secure and efficient payment processing.

### Flashcard Generator App (03/2023 - 04/2023) [🔗](#)

- Tags: React JS, react-redux, Tailwind CSS, Redux.
- AlmaBetter Verified Project.
- Developed a single-page Frontend web application using ReactJS, strategically incorporating diverse technologies to ensure unmatched scalability and efficiency throughout the App.
- Orchestrated the implementation of Redux for advanced state management, effectively tackling the challenges of scalability and complexity.
- Seamlessly integrated React-Router-Dom to establish secure and smooth routing mechanisms, ensuring protected navigation for users and an intuitive browsing experience.

### Get College Commune Web App

- Tags: Python, MySQL, HTML, CSS, JavaScript, Java
- Developed a web application called "College Commune" as part of a college final year project.
- It consists of three models: Staff Leave Management, Chatbot, and Note Sharing.
- The project aimed to create an online platform for college Teachers and students to connect and share resources within their community.
- Utilized Java for server-side development, employing Java Servlets or Java Server Pages (JSP) for handling server requests and responses.

## TECH STACK

Languages and Tools -

HTML, CSS, JavaScript, Python, MySQL, SQLite.

Libraries and Frameworks -

React JS, Node.js, Bootstrap, Tailwind CSS.

Platforms -

VS Code, Render, Netlify, GitHub, GIT.
